

## I-Search Voice

Finding your voice on paper is one of the most difficult, but exciting, parts of writing. Please spend this period reading the example I have provided. IF you don't get finished, that is okay! Take 10 minutes at the end of the period to answer the following questions and turn them in.

1. What can you tell about the author's personality based on the reading?
2. Does he paint a picture? Does he use precise and vivid imagery? How?
3. What does the writer value?
4. How is the author's word choice?
5. Overall, what grade would you give the paper and why?
